

Future Focused

Focusing our resources at the intersection of student demand and real-world opportunity

On April 15, Jacksonville University announced reimagined academic offerings to propel student success and academic excellence, meet community and market needs and create long-term financial sustainability. These decisions are the result of an intensive process over the past six months to understand demand for various programs and the future opportunities in those fields. Learn more via our public release [here](#).

This is a critically important moment for universities like ours across the country to decide how best to focus our resources to continue fulfilling our commitments to our students, our community and our region. Our goal is, and has always been, to prepare our students for success as leaders in their chosen fields by helping them realize their considerable potential.

Jacksonville University is continuing to offer its most sought-after undergraduate majors:

Resources available for students and faculty:

We recognize that these decisions affect the planning, lives and livelihood of a number of our students and faculty. We do not take these decisions lightly and are fully committed to supporting those individuals through this transition. We are offering comprehensive services to both students and faculty:

- We take seriously the fact that our decisions will impact the declared majors of about 100 of our more than 4,200 students, and we are going to support them all the way through their graduation from this University. **All students have a path to graduation from Jacksonville University.**

All students whose majors and programs are impacted by these updates have already been notified directly. A trained and experienced Care Team from the registrar's office, student affairs, academic advising, student financial services and the career exploration office are currently working with those students on their personalized academic plans. Students with questions can visit the Thrive Coaches in the Student Enrichment Center or reach out to the Care Team via email at CareTeam@ju.edu.

- Impacted faculty are being supported through the Office of People and Culture. Faculty-specific resources are also available on the PhinSight intranet site.
